

It takes *dedication* ...
to make a difference in
Samantha's life

Samantha DiMurro and
her mom Helen

...love

At CHEO dedication often comes full circle

A typical visit to CHEO during Samantha DiMurro's cancer treatment would see Sam's mom Helen drop her off at the front door while she would go and park the car. While this plan helped Samantha avoid the walk from the parking lot, mom soon learned that it would also mean a few extra minutes to seek out her daughter once inside. You see, even while being treated for multiple medical conditions, Sam has come to love the staff at CHEO who have cared for her over the past seven years, and mom would have to check any number of areas where Samantha would already be visiting with one or more of these amazing people.

CHEO is a proud member of

...dedication

Sam is a beautiful, happy and engaging young woman who is thankful there are so many people dedicated to making life better for kids like her. Sam has spent far too much time at CHEO being followed by the doctors in Gastroenterology since August of 2000 to treat intestinal lymphangiectasia (a condition in which the lymph vessels supplying the lining of the small intestine become enlarged). Sam was diagnosed with this condition at just six months of age. Then in July of 2006 Samantha and her parents received the devastating news that tests done as a result of severe abdominal pain revealed she had a form of cancer called Non-Hodgkin's Lymphoma. Since then Sam has been through an aggressive treatment plan of chemotherapy. In November of 2006 Sam was given the incredible news that tests showed she was cancer free and would only need one final round of chemotherapy.

While one would not wish Sam's medical experiences on any child, we can take comfort in the fact that after all of the tests, all of the treatment, and all of the days and nights spent in hospital, Sam remains dedicated to the staff and patients at CHEO. Always looking for ways to help, Sam plans to bring Christmas gifts to all of the patients on 4 North where she spent much of her time during her treatment. Nurses admired Sam's talent for art and as a result Sam would like to show her thanks and appreciation to CHEO by repainting the treatment room to give it a fresh, kid friendly look.

This is dedication from a young woman that has truly come full circle. It is a circle that starts with you, the kind people in the communities served by the Children's Hospital of Eastern Ontario. The successes in this Annual Report are a testament to your dedication to our children's health. Your generosity helps provide the tools, training and research that allow our doctors, nurses and staff to perform the job that is at the core of their dedication – taking care of our sick kids. At the CHEO Foundation, we are proud to be part of this wonderful circle and promise to remain dedicated to raising funds for your children's hospital. Why are we all so easily drawn into this circle? The answer is simple and can be found in Sam's smile.

On behalf of Sam and all CHEO patients, we would like to express the warmest thanks from the CHEO Foundation Board of Directors, the CHEO Foundation staff and everyone at CHEO, and we look forward to working with you in 2007.

Fred Bartlett

CHEO Foundation Board
of Directors

Every year our community kicks-off spring by making our annual bike ride and walking event – Tour Nortel – a resounding success and 2006 was no different. For the hundreds of participants and sponsors who helped raise a whopping \$557,804 for childhood cancer, it's all about the kids! Thank you to our many volunteers and all those who came out to walk, run, rollerblade or ride for this worthy cause.

...healing

The Children's Hospital of Eastern Ontario

CHEO was established in Ottawa, Canada's capital, in 1974 as a freestanding paediatric hospital. Over the past three decades, CHEO has grown into one of the most respected children's hospitals anywhere. Offering a full and growing spectrum of clinical paediatric services to children and youth from birth to 18 years who live in eastern Ontario, western Quebec, Baffin Island and beyond, we also serve as a training ground for tomorrow's health care providers, and conduct research at the frontiers of paediatric medicine.

Patient care at CHEO puts family first. CHEO health care teams recognize the importance of keeping families involved and informed through open, honest and respectful communications. We likewise provide unparalleled support and services that families count on when they need it most. This family-centred approach to care consistently earns CHEO high marks for patient satisfaction – and is essential to positive patient outcomes.

In 2006, more than 6,000 patients were admitted to CHEO, while 53,605 children and youth visited CHEO's Emergency Department, 143,106 children and youth visited outpatient or ambulatory care clinics and over 5,000 patients had outpatient/day surgery.

CHEO houses 167 inpatient beds – 20 are in Neonatal Intensive Care, 10 in Pediatric Intensive Care, 31 are in Psychiatry and 106 in inpatient wards. CHEO has six patient service units, including 63 different outpatient or ambulatory care clinics.

Reaching beyond everyday excellence in patient care, CHEO is a widely regarded teaching hospital and research centre. We are the primary paediatric teaching hospital for the University of Ottawa in all disciplines related to child and adolescent health. As such, CHEO welcomes interns, residents and fellows in a number of specialties and sub-specialties on an ongoing basis.

Every day, hundreds of scientists, doctors, nurses and health care professionals at CHEO conduct research directed at improving the health of children and youth. Established in 1984, CHEO's Research Institute is one of the institutes associated with the University of Ottawa bringing together the work and expertise of more than 200 health professionals. Their work spans a wide range of critical areas of research from benchtop to bedside and is published internationally. CHEO's Research Institute houses the Apoptosis Research Centre – a state of the art centre dedicated to the investigation of apoptosis or programmed cell death.

CHEO is home to the provincial Centre for Excellence in Child and Youth Mental Health and conducts genetic newborn screening for the province of Ontario. All of which are a testament to the skills and expertise of CHEO staff, physicians and researchers, and the hospital's commitment to enhancing the treatment and well-being of children and youth everywhere.

and mom Kim Melnyk

The Children's Hospital Foundation

As we look ahead to another year of raising funds for the Children's Hospital of Eastern Ontario, we like to look back at the previous year's work to identify trends, evaluate programs, and speculate on what might be in store for the coming year. Looking back on 2006 there is one trend we are very happy to report...a trend of growth.

One wonders if this growth is caused by people caring more, or by more people caring? We like to think that it's a little bit of both, as evidenced by the following facts.

2006 was a record breaking year for the CHEO Foundation with new benchmarks being set in many of our events including: Tour Nortel, our cycling and walking event which raised \$557,804; our Dream of a Lifetime Lottery which was a sell-out; and the 2006 CHEO Telethon which surpassed the \$4.9 million mark for the first time. Dedicated people throughout our region organized over 200 special fundraising events for CHEO and donations through our Direct Mail program and other initiatives were also at an all time high.

All of this remarkable work is made possible by a warm, child-friendly community that believes in the work being done at the Children's Hospital of Eastern Ontario. Their support shows great confidence in the doctors, nurses and staff at CHEO. Each gift made to the CHEO Foundation truly does make a difference, and we ensure that each donated dollar is invested wisely with the goal of providing the finest paediatric health care for our children and youth.

Each year the hospital identifies major areas that require funding which traditionally fall into the following groups:

- Research start-up grants
- Equipment
- Staff education
- Family emergency needs
- Enhancements to the paediatric nature of CHEO

The Hospital and Foundation boards collaborate to distribute the funds where the needs are greatest.

The Foundation commits approximately \$900,000 per year to the CHEO Research Institute for distribution to researchers starting new projects.

At CHEO, there is strong support for the fundamental belief that no matter the circumstance, kids must be kids and every attempt is made to make a child's stay as normal and as fun as possible. This is why Foundation funding helps enhance the paediatric nature of the hospital by providing child-friendly decor, play parks, video game stations and more. Some funding is made available to CHEO social workers who in turn help families who are in crisis and need short-term financial assistance to make it through a difficult period.

It is of the utmost importance that as the communities in our region continue to grow, CHEO grows right along with them. The people of eastern Ontario and western Quebec realize this, and thanks to their continued support, CHEO will be here to take care of our children now, and for generations to come.

CHEO patient Caden and mom Andrea Dawson

Every spring the CHEO cafeteria comes alive with on-air emotion as 106.9 The Bear and Y101 radio stations both set up shop and execute three day radiothons. The result is always three days of captivating radio that goes deep into the lives of CHEO families and the staff that care for them. Whether it's a broken bone or cancer treatments the message is the same...the doctors and nurses treat each patient with the utmost care. And the

...caring

Our mission: *"To further the physical, mental and social well-being of children and their families in eastern Ontario and western Quebec by raising, managing and disbursing funds."*

response from the public is always the same...warm generous support. And the CHEO reply to the radio stations and their listeners is always the same...a great big thank you! 106.9 The Bear and Y101 faithful listeners donated totals of \$319,127 and \$217,131 respectively, which will go a long way for the kids at CHEO.

Ethical Fundraising and Financial Accountability Code

A. Donors' Rights

1. All donors are entitled to receive an official receipt for income tax purposes for the amount of the donation. Donors of non-monetary eligible gifts (or gifts-in-kind) are entitled to receive an official receipt that reflects the fair market value of the gift, according to Canada Revenue Agency guidelines. The Children's Hospital of Eastern Ontario Foundation ("Foundation") Board may establish a minimum amount for the automatic issuance of receipts, in which case smaller donations will be receipted only upon request.
2. All fundraising solicitations by or on behalf of the Foundation will disclose the Foundation's name and the purpose for which funds are requested. Printed solicitations (however transmitted) will also include its address or other contact information.
3. Donors and prospective donors are entitled to the following, promptly upon request:
 - the Foundation's most recent Annual Report and financial statements as approved by the Board;
 - the Foundation's registration number (BN) as assigned by Canada Revenue Agency;
 - any information contained in the public portion of the Foundation's most recent Charity Information Return (form T3010) as submitted to Canada Revenue Agency;
 - a list of the names of the members of the Board;
 - a copy of this Ethical Fundraising and Financial Accountability Code; and
 - a copy of the Foundation's "Donor Bill of Rights."
4. Donors and prospective donors are entitled to know, upon request, whether an individual soliciting funds on behalf of the Foundation is a volunteer, an employee, or a consultant.
5. Donors will be encouraged to seek independent advice if the Foundation has any reason to believe that a proposed gift might significantly affect the donor's financial position, taxable income, or relationship with other family members.
6. Donors' requests to remain anonymous will be respected.
7. The privacy of donors will be respected. Any donor records that are maintained by the Foundation will be kept confidential to the greatest extent possible. Donor records will be kept confidential unless consent to release the information is provided in writing by the donor or if the Foundation is required by law to release the information. All staff and related suppliers must sign Confidentiality Agreements. Donors have the right to see their own donor record, and to challenge its accuracy.
8. Under no circumstances will the Foundation exchange, rent, or otherwise share its fundraising list with other individuals or organizations.
9. Donors and prospective donors will be treated with respect. Every effort will be made to honour their requests to:
 - limit the frequency of solicitations;
 - not to be solicited by telephone or other technology; and
 - not receive printed material concerning the Foundation or CHEO.
10. The Foundation will respond promptly to a complaint from a donor or a prospective donor about any matter that is addressed in this Code. The President and Chief Executive Officer will attempt to satisfy the complainant's concerns in the first instance. A complainant who remains dissatisfied will be informed that he/she may appeal in writing to the Foundation Board and will be advised in writing of the disposition of the appeal.

CHEO patient Morgan MacIntyre
and child life specialist Brenda Robinson

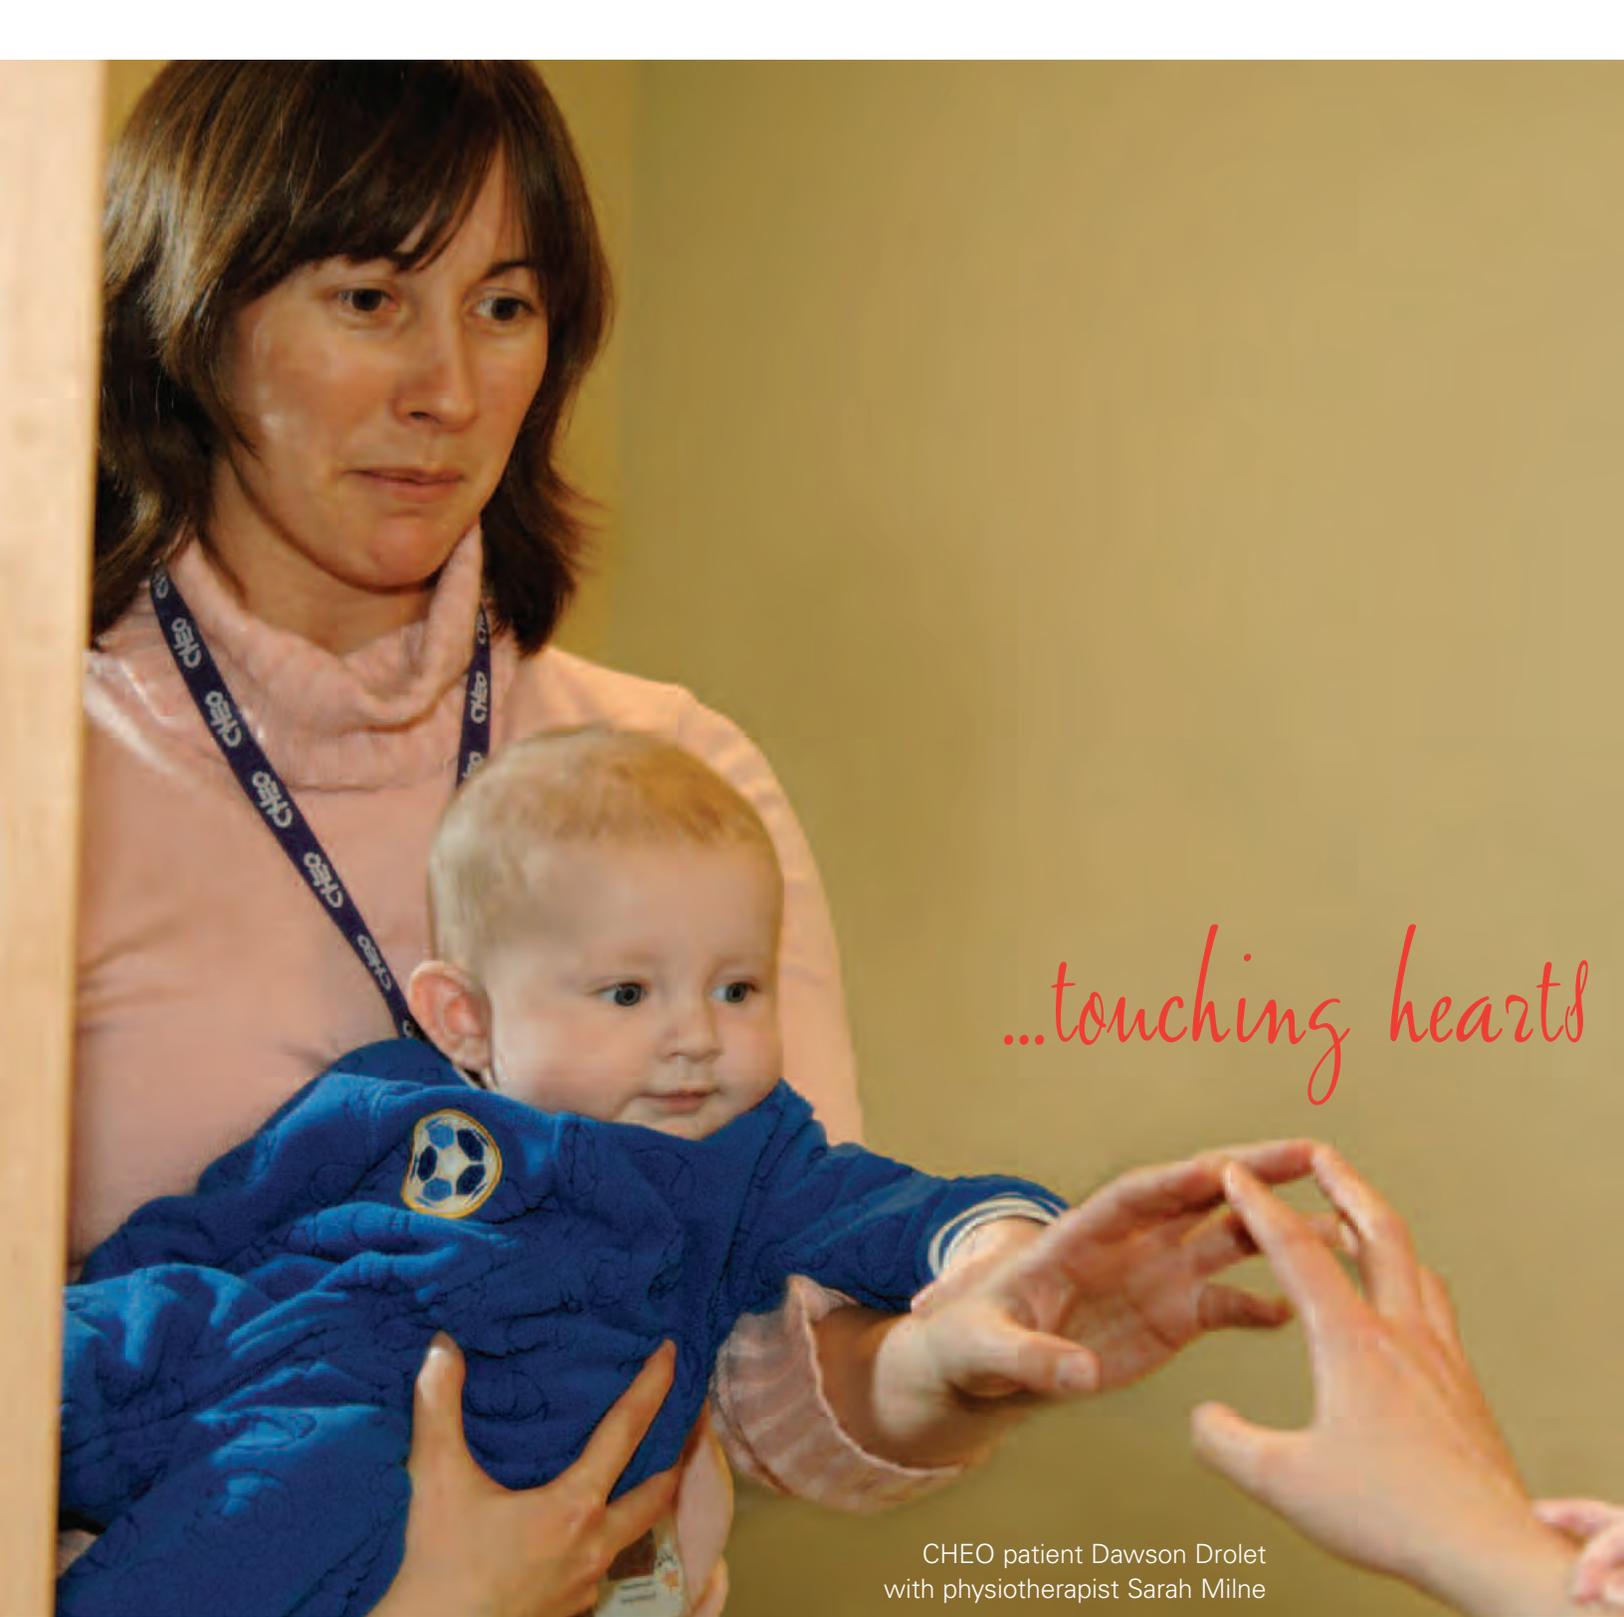

It's always an exciting moment in the Dream of a Lifetime Lottery when the grand prize winner's name is pulled from the drum and we fulfill the dreams and change the life of one lucky person or family. But thanks to you, we are also able to make dreams come true inside the walls of your children's hospital. Thanks to the tremendous support we had a sell out year and raised \$2,318,887. Our sincerest gratitude goes out to all our ticket buyers and sponsors for making this lottery a huge success.

B. Fundraising Practices

1. Fundraising solicitations on behalf of the Foundation will:
 - be truthful;
 - accurately describe the Foundation and CHEO's activities and the intended use of donated funds; and,
 - respect the dignity and privacy of those who benefit from Hospital activities.
2. Volunteers, employees and consultants who solicit or receive funds on behalf of the Foundation shall:
 - adhere to the provisions of this Ethical Fundraising and Financial Accountability Code;
 - act with fairness, integrity, and in accordance with all applicable laws;
 - adhere to the provisions of applicable professional codes of ethics, standards of practice, etc.;
 - cease solicitation of a prospective donor who identifies the solicitation as harassment or undue pressure;
 - disclose immediately to the Foundation any actual or apparent conflict of interest; and
 - not accept donations for purposes that are inconsistent with the Foundation or CHEO's objects or mission.
3. Paid fundraisers, whether staff or consultants, will be compensated by a salary, retainer or fee, and will not be paid finders' fees, commissions or other payments based on either the number of gifts received or the value of funds raised. Compensation policies for fundraisers, including performance-based compensation practices (such as salary increases or bonuses) will be consistent with the Foundation's policies and practices that apply to non-fundraising personnel.
4. The Foundation Board will be informed at least annually of the number, type and disposition of complaints received from donors or prospective donors about matters that are addressed in this Ethical Fundraising and Financial Accountability Code.

C. Financial Accountability

1. The Foundation's financial affairs will be conducted in a responsible manner, consistent with the ethical obligations of stewardship and the legal requirements of provincial and federal regulators.
2. All donations will be used to support the Foundation's objects, as registered with Canada Revenue Agency.
3. All restricted or designated donations will be used for the purposes for which they are given. If necessary, due to program or organizational changes, alternative uses will be discussed where possible with the donor or the donor's legal designate. If no agreement can be reached with the donor or his/her legal designate about alternative uses for a restricted or designated donation, the Foundation will return the unexpended portion of the donation. If the donor is deceased or legally incompetent, the donation will be used in a manner that is as consistent as possible with the donor's original intent.
4. Annual financial reports will:
 - be factual and accurate in all material respects;
 - disclose:
 - the total amount of fundraising revenues (received and non-received);
 - the total amount of fundraising expenses (including salaries and overhead costs);
 - the total amount of donations that are received for income tax purposes (excluding bequests, endowed donations that cannot be expended for at least 10 years, and gifts from other charities);
 - the total amount of expenditures on charitable activities (including gifts to other charities);
 - identify government grants and contributions separately from other donations; and
 - be prepared in accordance with generally accepted accounting principles and standards established by the Canadian Institute of Chartered Accountants, in all material respects.
5. No more will be spent on administration and fundraising than is required to ensure effective management and resource development. In any event, the Foundation will meet or exceed Canada Revenue Agency's requirement for expenditures on charitable activities.
6. The cost-effectiveness of the Foundation's fundraising program will be reviewed regularly by the Board.

...responsibility

Statement of Management's Responsibility for Financial Statements

The accompanying financial statements of the Children's Hospital of Eastern Ontario Foundation are the responsibility of management. The financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. In 2007, CHEO Foundation is required to adopt the provisions of Section 3855 – Financial Instruments – of the accounting handbook issued by the Canadian Institute of Chartered Accountants. This will necessitate some changes in accounting treatment of investments and disclosure presentation in the Foundation's financial statements.

The Foundation maintains systems of internal accounting and administrative controls of high quality, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that the financial information is relevant, reliable, accurate, and complete, in all material respects, and that the Foundation's assets are appropriately accounted for and adequately safeguarded.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements. The Board carries out this responsibility principally through its Finance Committee, whose members are appointed by the Board.

The Finance Committee meets with management and the external auditors to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, and to satisfy itself that each party is properly discharging its responsibilities. The Finance Committee reports its findings to the Board for consideration when approving the financial statements for issuance to the members in the Annual Report.

CHEO Foundation Donor Bill of Rights

CHEO patient Chloé Sauvé with mom Josée Théorêt

...laughter

To assure that our donors and prospective donors can have full confidence in the CHEO Foundation and the Children’s Hospital of Eastern Ontario, we declare that all donors have the following rights:

1. To be informed of the CHEO Foundation’s mission, of the way we intend to use donated resources, and of its capacity to use donations effectively for their intended purposes.
2. To be informed of the identity of the CHEO Foundation’s governing board, and to expect the board to exercise prudent judgement in its stewardship responsibilities.
3. To have access to the CHEO Foundation’s most recent financial statements.
4. To be assured their gifts will be used for the purposes for which they were given.
5. To receive appropriate acknowledgement and recognition.

6. To be assured that information about their donations is handled with respect and with confidentiality to the extent provided by law.
7. To expect that all relationships with individuals representing organizations of interest to the donor will be professional in nature.
8. To be informed whether those seeking donations are volunteers, employees of the CHEO Foundation, or hired solicitors.
9. To have the opportunity for their names to be deleted from mailing lists.
10. To feel free to ask questions when making a donation and to receive prompt, truthful and forthright answers.

...kindness ...la bonté

It is always a flood of emotion when the final totals come up on the big screen, and this year was no exception. We can't say thank you enough to our caring public for helping us raise \$4,957,130 for your children's hospital! There were many tears and smiles throughout the 24 hour CHEO Telethon on CTV Ottawa as we were taken into the lives of some of CHEO's wonderful families. They shared with us the ups and downs of their CHEO experience and our community showed us once again that they truly want to make a difference for CHEO's kids.

Alors que le montant total est affiché sur écran géant, l'émotion est à son plus fort! Comment remercier tous les amis du CHEO qui ont été si généreux et qui nous ont aidés à amasser une somme record – 4 957 130 \$! Que d'émotions vécues, de larmes et cris de joie, durant les vingt-quatre heures du Téléthon du CHEO, télédiffusé sur le réseau CTV Ottawa. Plusieurs familles ont partagé leurs expériences, parfois heureuses, parfois tristes, témoignant du rôle important du CHEO dans leurs vies et celles de leurs enfants.
